

ALASKA
2007

Camper's Name:

TRAVEL TRIP RESTRICTED DIET AUTHORIZATION 2007

Tamarack Camps is pleased to offer a vegetarian or dairy free diet as an option to those campers who are used to this type of diet at home.

These options are not recommended for children who are not already used to it nor is it intended to provide children with an option for partaking of a meal that seems preferable to them at any given time. Campers on the Restricted Diet list will forfeit his or her access to your special dietary requests for the rest of their session should they insist on having a meal not in conjunction with their restrictions at any time during the summer.

Our Travel Trips are unable to guarantee a peanut/nut free environment. Campers who have fatal allergies to common foods served at camp are NOT recommended for this program.

I would like my child to have access to the following diet:
